Eckington Civic Association Meeting
Monday, September 14, 2015, 7:00pm
The Summit at St. Martin's, 116 T Street NE

Agenda

1. **President's Report and Committee Report**

2. **Proposal to use ECA funds for historic preservation/heritage trail research.**

3. **Presentation on Proposed Rhode Island Avenue Shopping Center PUD**

Michael Skena, MRP Realty

4. **Presentation on Resources available through the DC Office on Aging**

Alice Thompson, Community Outreach Specialist

5. **Safety Update**

Metropolitan Police Department

6. **https://eckingtoncivicassociation.wordpress.com**

Reminder, the next cleanup is Saturday, September 19 at 10:00.

1. **Proposed resolution:**

The Eckington Civic Association strongly supports programs offering affordable housing in the Eckington neighborhood. We oppose the petition in BZA Case. No. 19101 (2112-2126 3rd Street NE) to waive the obligation to provide affordable units in this development. This development should include affordable housing according to the requirements of DC law.

2. **Propose allocation of funds**

$10,000 to be allocated to a professional heritage/historic preservation research firm for a detailed history of the Eckington neighborhood. This research shall be part of an Eckington Civic Association sponsored investigation of historic preservation district status. The research shall also be used for an Eckington heritage trail.

3. **Proposal to amend by-laws**

Current version:

"The purpose of the Association is to promote the civic welfare (to include, but not be limited to, social, economic, and environmental issues/concerns) within the District of Columbia and especially within the vicinity of the area described in Article I, Section 3."

Proposed bylaws change:

"The purpose of the Association is to promote the civic welfare (to include, but not be limited to, social, economic, environmental, public safety, quality of life, heritage and historic preservation issues/concerns) within the District of Columbia and especially within the vicinity of the area described in Article I, Section 3."
